

Small creatures interact with man-made things/ leftover

Small creatures interact with natural surroundings/ other living beings

Hard to identify when sparrows are in the trees/grass

A mimic of what a sparrow may see through grass (Are they able to easily identify human?)

**People's breakfast/
Pigeon's food eaten
by sparrows**

Sparrows habitat in
the interlayer of the
pavilion

Can hear them tweet
sitting under

People singing

People carrying a bench with them

A self-formed group chatting

Eating half of a watermelon with a knife

What do they chat

- State affairs
- Housing price
- Grand children
- Health

They uses the park as

- Social place
- Sports venue
- Kindergarten

Tree's seed falls and stick to bush leaves

Or

Someone pinned a seed on the leaf

Moss grows into a sphere
