

→ cocoon

We swinging  
on a tree

sticky  
gloves

to get a  
GECKO vision.

Allow people kissing  
like lizard

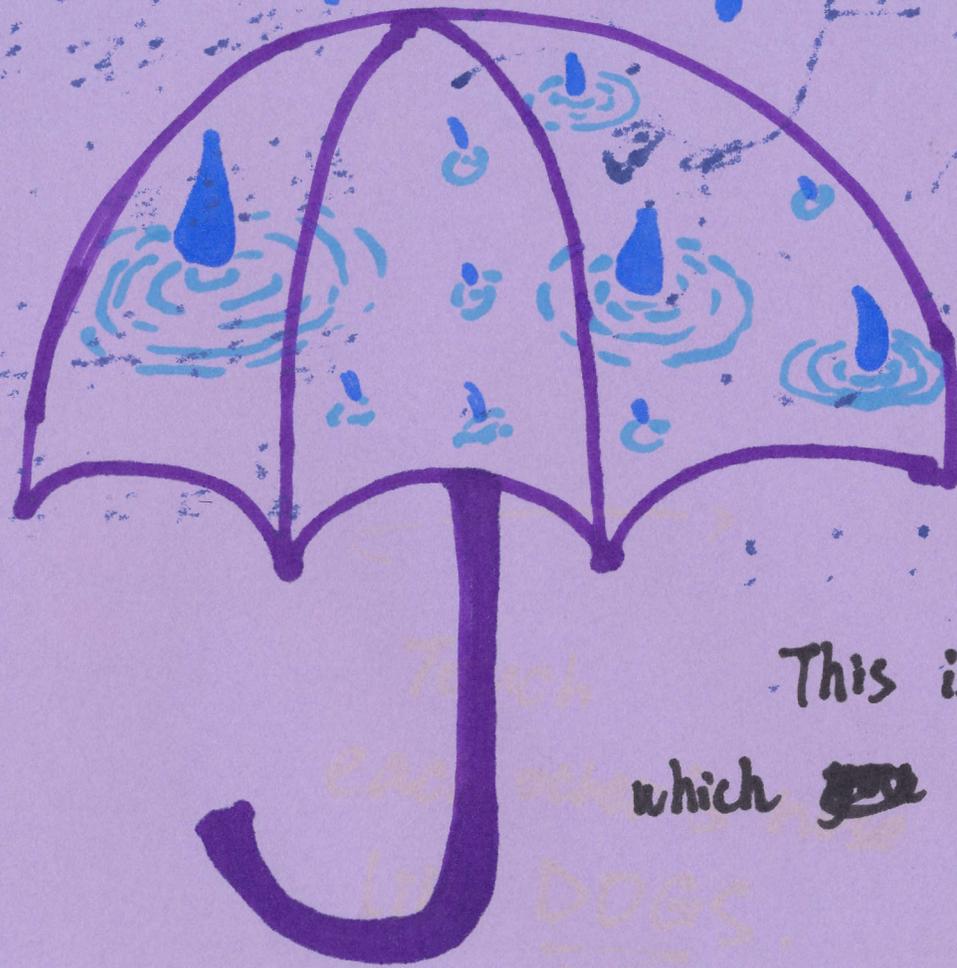

To see other's  
information!

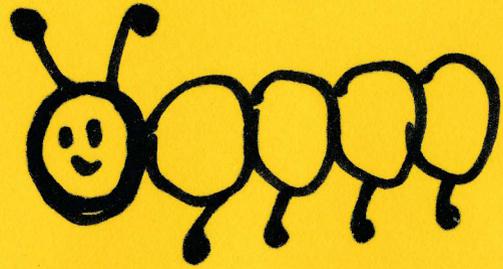

Touch  
each other's nose  
like DOGS.

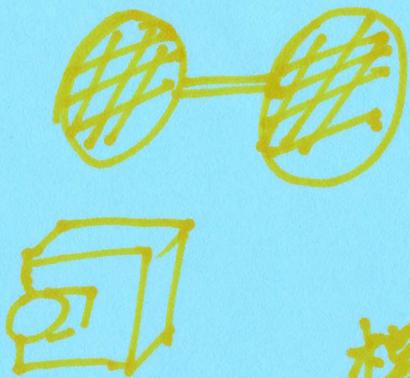

This is an umbrella which ~~you~~ can sense the  $\wedge$  circumstance of rain whether heavy or light heavy rain will trigger huge ripple.

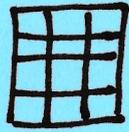

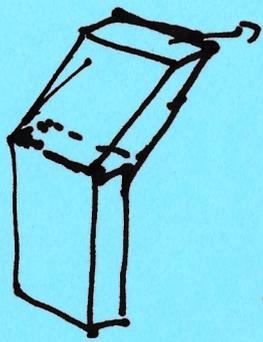

像毛毛虫一样  
移动的衣服  
能限制人的行动。  
必须蠕动前进。

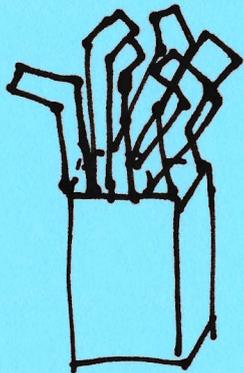

→ 雷达测距 ←  
模拟蝙蝠

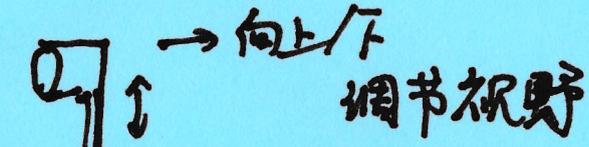

当视力在极低的情况下，  
只能通过发射雷达，经障碍物被反  
射后测定距离。

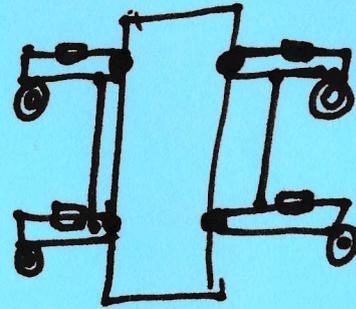

很多小格  
 每格有一个小镜片，<sup>角度不同</sup>反射不同  
 同时看到多个方向的东西

模拟腹眼

四肢挂四个带子，两边同时制动  
 可以滑动行走

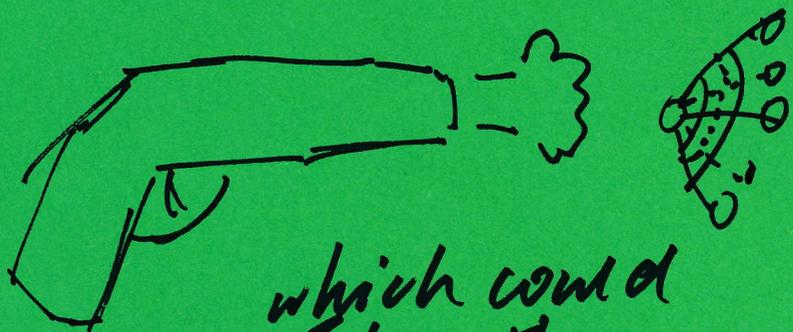

模拟爬行

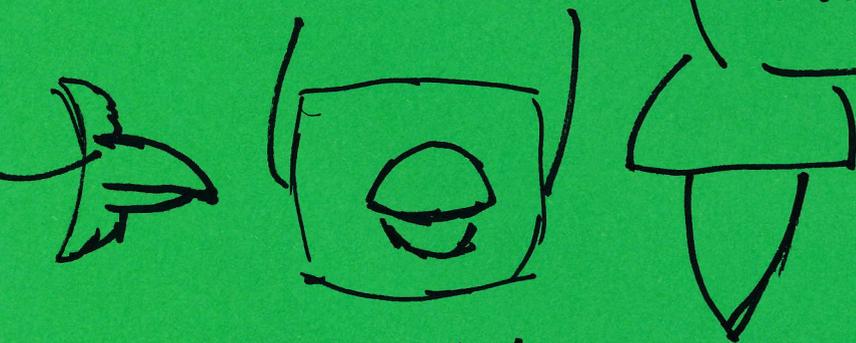

It have other kinds of pictures to change.

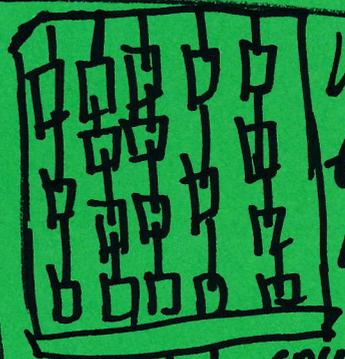

By using this to observe the world to find what if the scenery is used to make a clothes.

which could a gun ~~with~~ shoot a network. to catch something

a mouth like a chicken which can let user to experience how a chicken eat.

Using this to hear the sound of mind

OR it's hole.

it's a pair of gloves with sharp iron top. you can use it to grab the soil easily and edge into the soil so you can feel the temperature ~~even~~ of the soil ~~and many other things~~ and other things without getting dirt on your ~~best~~ hand.

Finally you can store the soil in your gloves with replaceable top.

how do you want to get closer to nature:

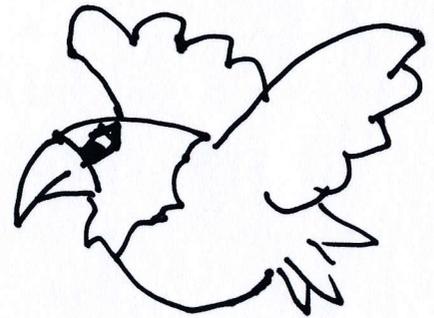

I could still see the ground when flying high like an eagle.

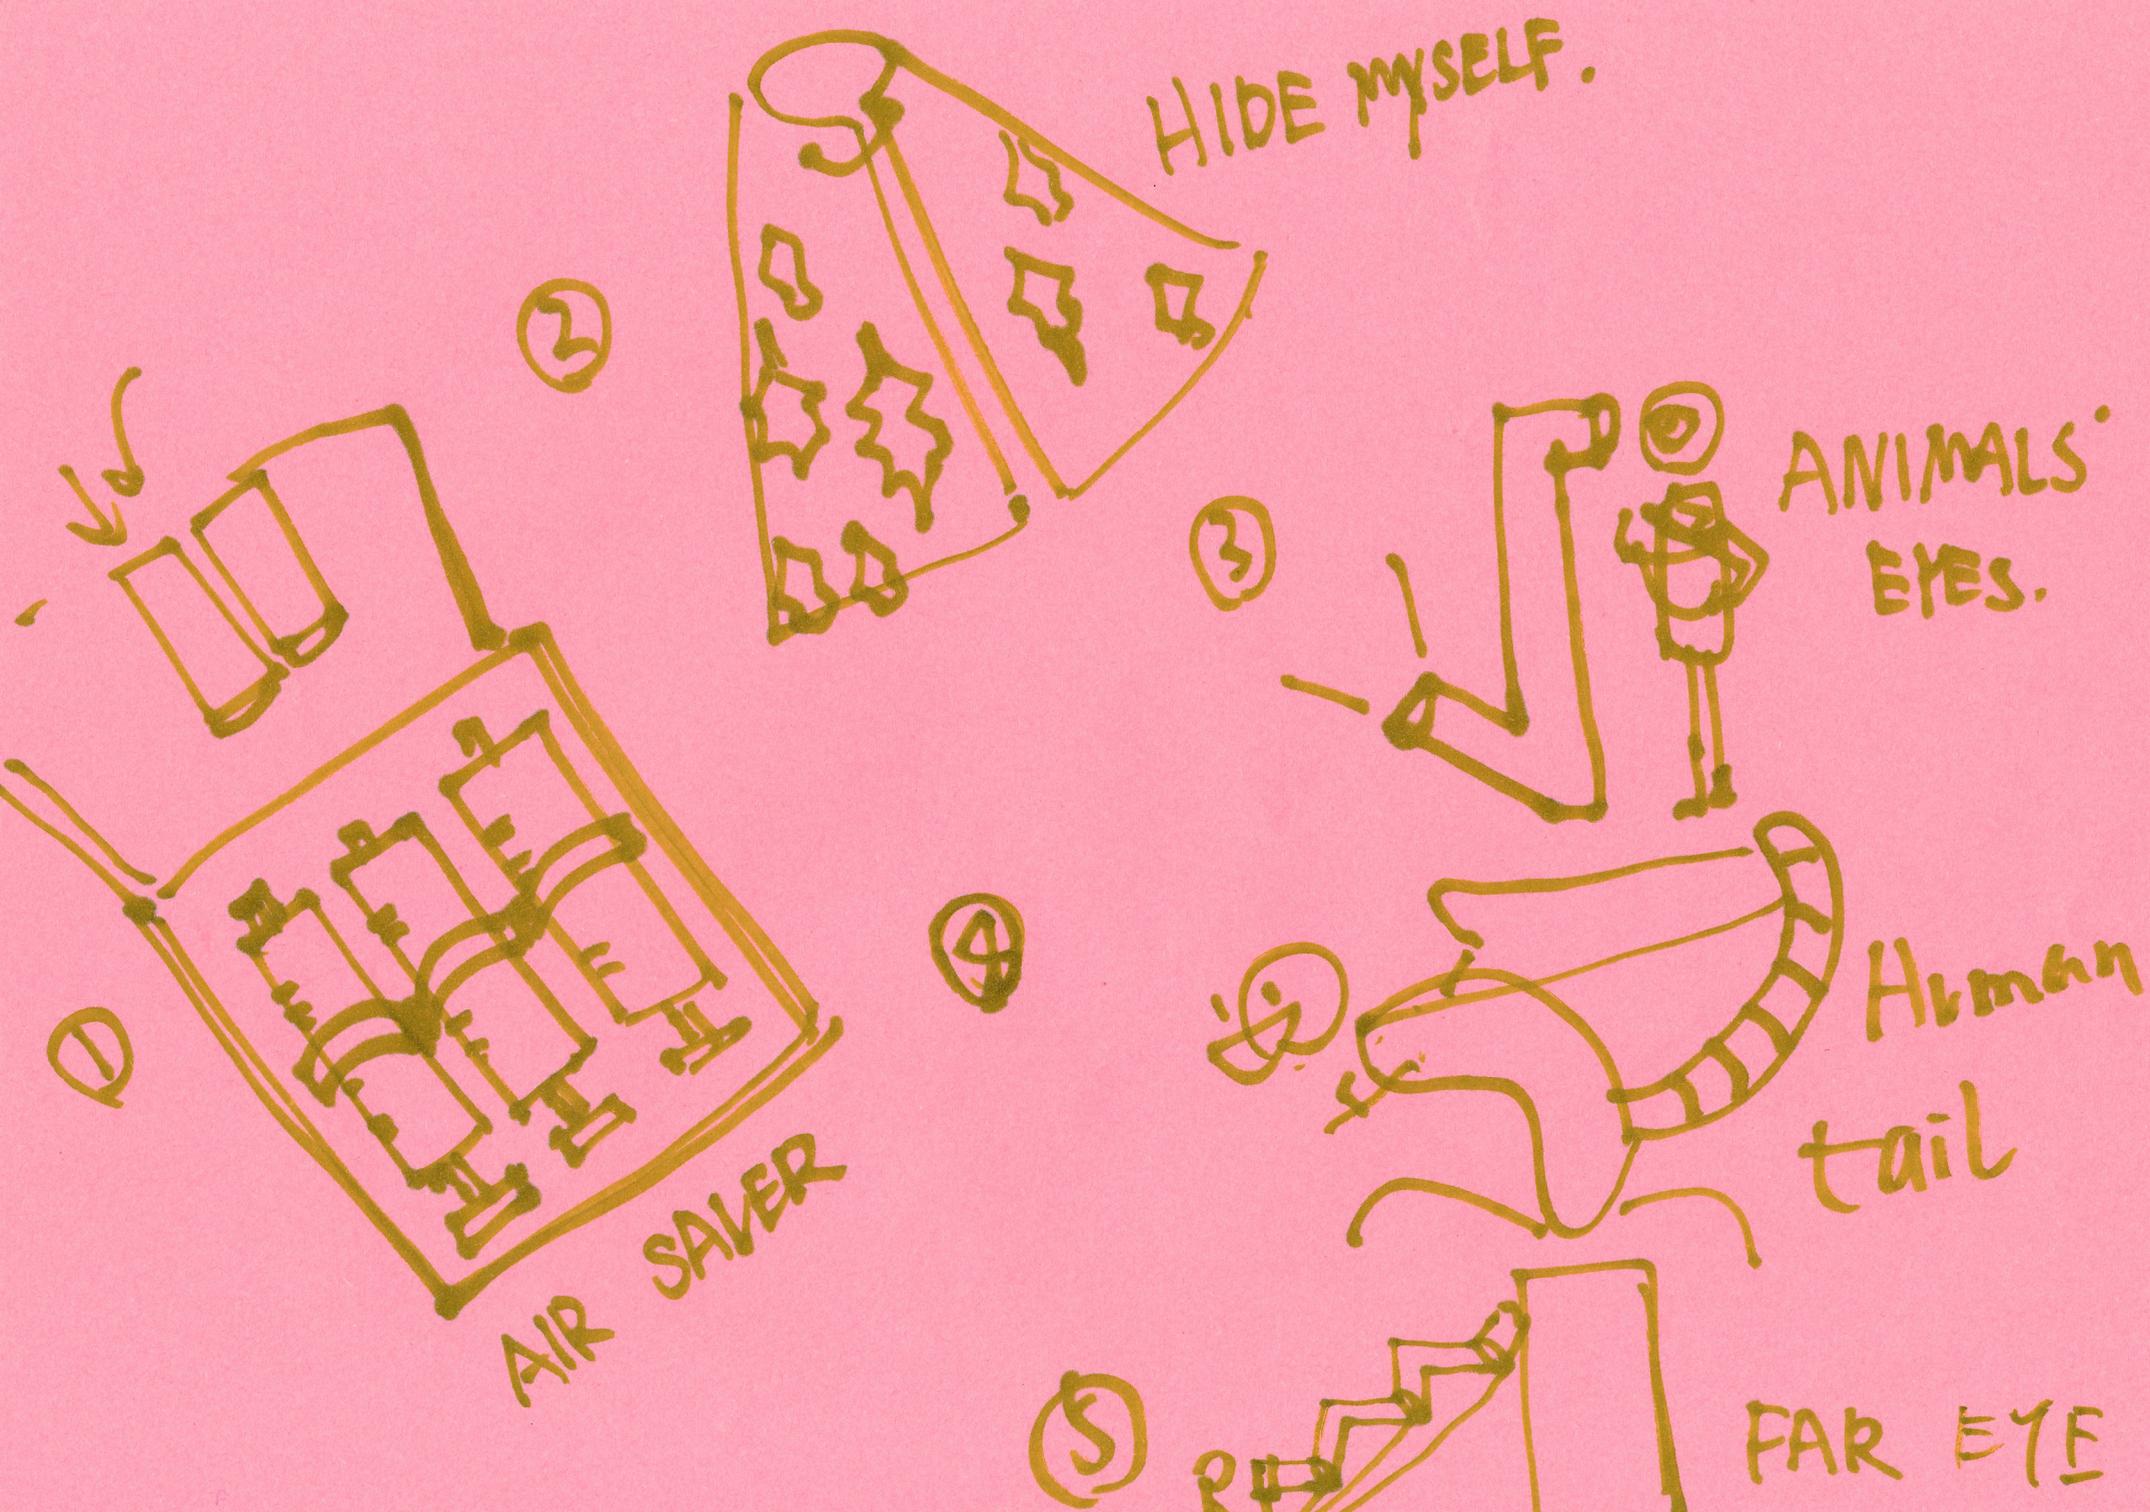

which skill would you like to have to be able to reconnect:

the skill of flying high and good eyesight

which tool would you like to build:

hot air balloon +  
super power telescope

# NATURE COLLECTOR!

~~the~~ priceless jewelry!

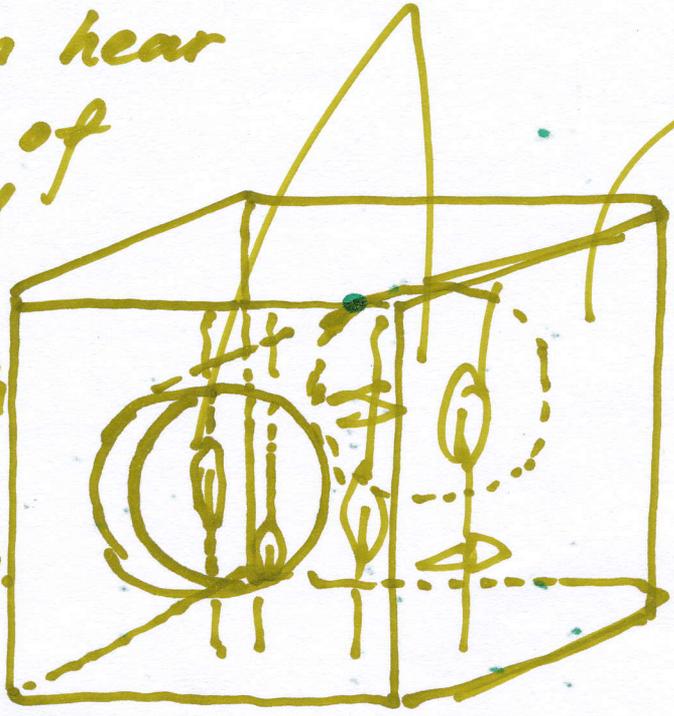

ring with a transparent container or necklace

you can put everything you see from the nature into it!

shake the box beside ears, holes

Then u can hear the sound of wind going through the leaves.

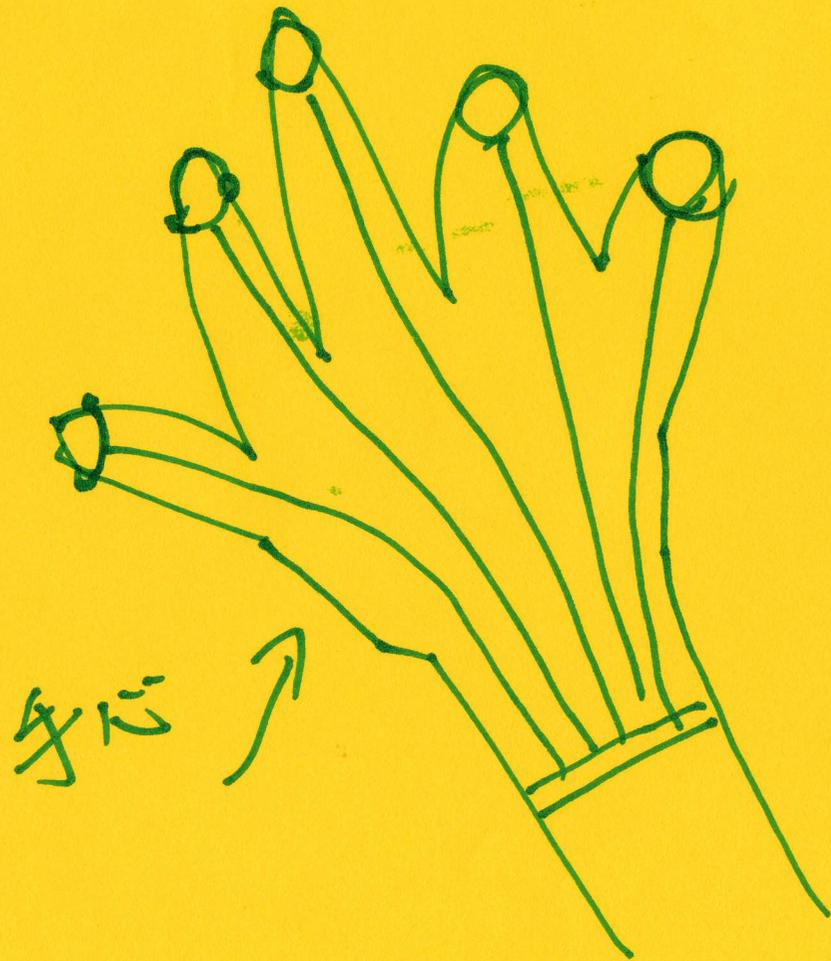

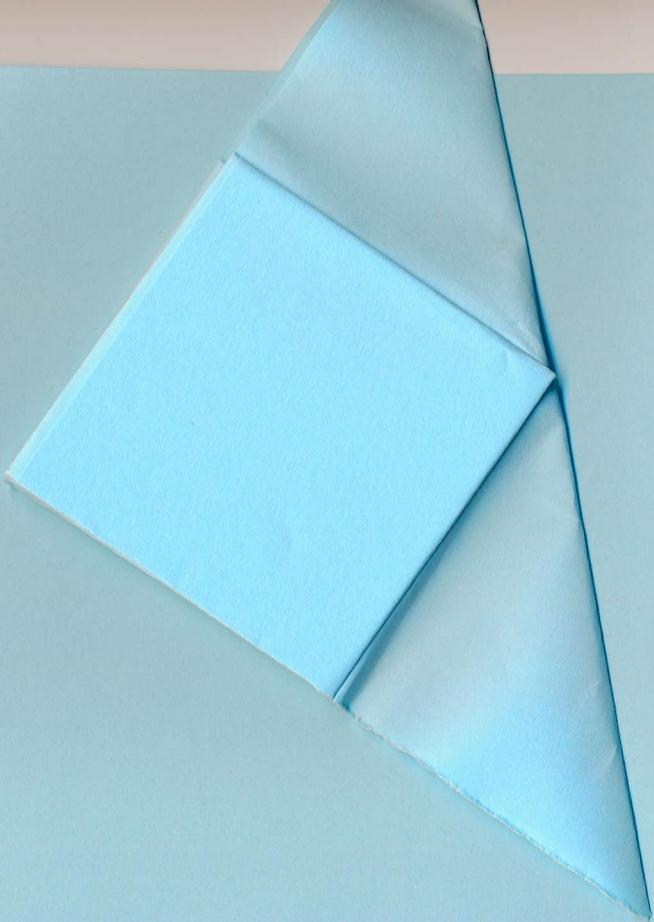

inside box:  
ropes  
metals pieces rotates freely.

模仿抓握力方向  
与人类相反的动物。

手心面采用牵引装置，  
使手在放松状态下为  
蜷缩的姿态，用力时  
才可张开手。

(例如：考拉)。

(because birds cannot catch, that's why I came up with this idea!)

← Use it to feel how to grab (?) like a bird.

bird talon? Maybe.

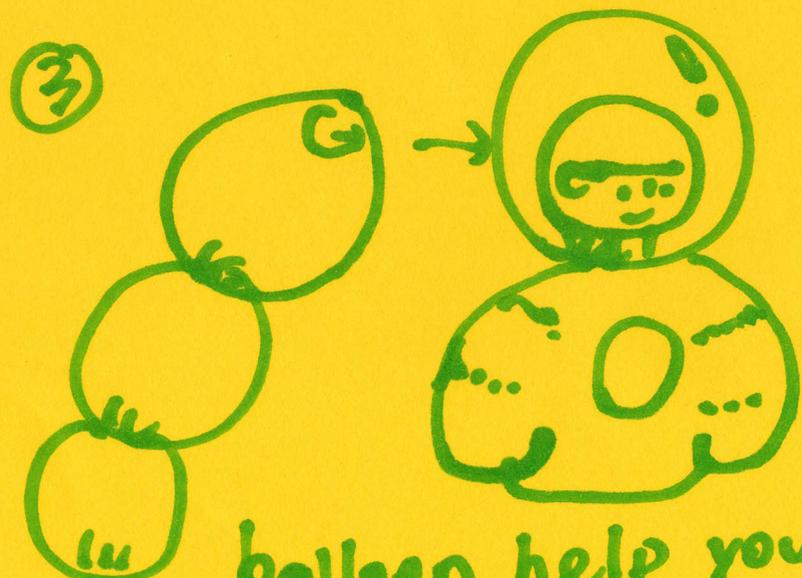

← Another thinking: ~~use~~ <sup>cut</sup> papers into small pieces and stick them together like a branch. like that put ~~into~~ <sup>it</sup> into wind to simulate the sound of leaves blowing by wind!

wings help you detect the 风向

① ears that help you feel the wind.

balloon help you feel the vibrate of the wind.

I can feel the wind

plastic

I can hear more

Birds food

I'm a friend with Birds
